

Wouldn't it be **amazing** if there was a way for companies to drastically reduce their accounting & payroll costs AND have more time to focus on core business?

There is...

**ManufacturingConnector** from Resource Navigation!

*Companies were demanding it, so we created a **software solution that actually streamlines payroll and accounting processes – reducing time-wasting redundancies while speeding information flow.***

#### **Five reasons to sell ManufacturingConnector NOW!**

1. **Enormous cost-savings** – ManufacturingConnector, like all of Resource Navigation's robust software solutions save companies huge amounts of money by reducing overall costs such as employer taxes.
2. **Simplified accounting** - ManufacturingConnector links core business software together into one customizable, user-friendly interface that allows for real-time access.
3. **No reinventing the wheel** – This solution allows companies to use existing software applications (including Microsoft Dynamics DP, QuickBooks, Peachtree and others) for accounting, estimating, project management and reporting while outsourcing payroll-related services to ADP.
4. **Just the features they want** – The streamlined design means companies get just the software design they need for their business – and nothing more.
5. **Created by ADP preferred vendor Resource Navigation** – We've been a partner with ADP since 1999 with over 3200 clients who have already experienced what payroll outsourcing can do for a bottom line.
